

SUPPLY / FABRICATION / INSTALLATION

The substance of distinction.

Marble & stone, from selection to installation.

حضور تصنعه الخامة، ودقة تكمل التفاصيل

Stone is only the beginning.

من الحجر تبدأ الحكاية

LiTiCA connects material supply, fabrication at our factory and installation on site. One coordinated scope brings the selected stone, the technical details and the finished work together.

Our trading history began in 2011 as Mawazeen Al-Deqah General Contracting. The same ownership, team and factory continue under LiTiCA.

One responsibility. Every stage.

من اختيار الخامة إلى اكتمال التنفيذ

01 Supply

التوريد

Marble, granite, porcelain and ceramic selected around samples, intended use and project requirements.

02 Fabrication

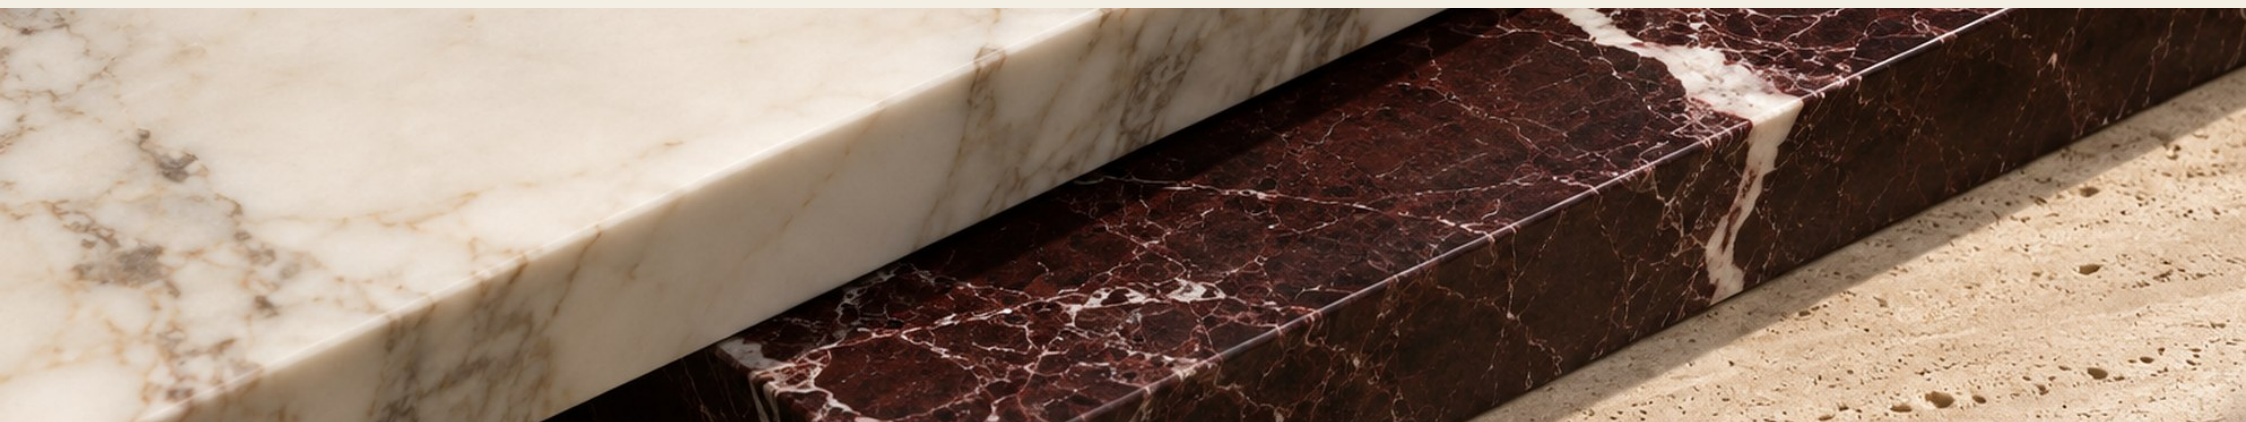

التصنيع

Cutting, detailing and made-to-order production at our factory, coordinated with dimensions, edges and finishes.

03 Installation

التركيب

Site measurement, setting out, installation and final treatment by our installation crews.

A palette with presence.

خامات تثري المكان

Veining, texture and tone become part of the architecture. Material selection starts with its intended use and the approved sample.

Marble / Granite

Porcelain / Ceramic

Stone / Mosaic

Made for the way we live.

12 / OUR DIRECTION

Stone today. Full fit-out ahead.

نحو التشطيبات المتكاملة

Our current offering centres on marble and stone. LiTiCA is developing towards a broader full fit-out scope, carrying the same attention to materials, coordination and execution into future trades.

Interior illustration

The next chapter
begins with a conversation.
